

Occurrence reporting

Published: 23.09.2021.

Occurrence reporting

According to 03.11.2015 Cabinet of Ministers Regulation No. 634 (CMR 634) „Reporting of occurrences in civil aviation” Article 7. Civil Aviation Agency of Latvia (LV CAA) maintains a data base, where it collects and stores information about occurrences in civil aviation.

This system as par Regulation 376/2014 aims to improve aviation safety by ensuring that relevant safety information relating to civil aviation is reported, collected, stored, protected, exchanged, disseminated and analysed.

The sole objective of occurrence reporting is the prevention of accidents and incidents and not to attribute blame or liability.

Data base contains only 'disidentified information' which means that names or addresses of natural persons have been removed.
